Hi, all. I will be happy to load the presentations. I suggest that you carry a copy with you on a flash drive, as one never knows what craziness can occur.

Attached is the slide deck for our talk. Do I need to upload these for SRA as well? They indicated so in their instructions for presenters but I did not know if you would do that for all Rita? I am looking forward to the session!

Hi, everyone. And Happy Feast of the Immaculate Conception (December is just full of feasts). Not surprisingly, everyone's schedules precludes a meeting before the SRA begins. And, in truth, a time during the conference will be problematic. I will circulate the draft

presentations among our group as well as my opening slide and starter questions -- once I have received the former and have assembled the latter.

I will also look for a suitable bar for a brief happy hour Tuesday evening; anyone who wishes to share a glass of whatever is invited to join me at 5:30 pm.

Safe travels. And please send me whatever draft presentation materials by noon tomorrow. Thanks.

Happy St Nicholas Day! And note that our symposium Advances in the Use of Mechanistic Data in Evaluating Carcinogenic Risk is just a week away. I have attached a copy of the schedule and abstracts from the SRA on-line program. We are on for 10:30 - noon Wednesday with a pretty standard format: 20 minute papers, followed by a 30 minute discussion period. I will be moderating the session. It would help all of us to hone our messages for these short papers if we could see each others' draft presentations in advance. I'm suggesting that you send me a draft by noon Thursday, and I will send to you all. I plan to put together a couple of talking points to introduce the session as well as some questions for the panel to get discussion going.

(Tony, would you send LM Plunkett's email address?)

Would you like to meet in advance of our symposium? I'm proposing a 30 min conference call this Friday at noon EST. Alternatively, we could try for a short happy hour Sunday or Monday night in San Diego. Please let me know your preference.

Talk to you all soon.
